RECOMMENDATION LETTER

It is a great pleasure for a teacher to write about a student, so prerogative to do the same. I have known _____ for last two years as one of the good student of our School.

He studied the subject Accountancy under me during pursuing School education program. He has a great devotion for the subject as a result of which he does no stop at the solution and always tries to refine to the best. He never limits his studies to the syllabus of the school and is always in search of something new. His acumen and indefatigable attitude in problem solving are worth more than mention.

To be a successful student, I find all qualities in _____ enthusiasm, sound academic background, perseverance and self confidence. In addition to the technical skills, he has a ability to perform the task assigned to his perfectly which would make him a good assistant.

I would strongly recommend _____ his further study at your renowned Institute.

I wish him good luck and success in whichever career he pursues in future

Sincerely

(Vimla Ravat)
